— THE — POWER^{OF} SILENCE COLLECTION

One of the hottest and classical line from Pyroshine of low-noise fireworks!

To fireworks loudness is one of the crucial point for the sales, and effects must be as big as possible. This is the definition of a good product for so many years. Along with people's voice for protecting the pets and also their taste changes, people start talking about something quiet and different fireworks which are still beautiful and joyful. The power of silence origins from here, and was preferable by many our customers since it was built from 2018.

It wasn't that successful at the beginning because it takes time to be recognized for the market and also our experiences is quite few. To make really stunning quiet items are pretty challenging, and we have very high requirements on the use of materials, techniques and specialties. All the effects from this line have been tested many times and also the optimizations from customer's feedback.

When there is something loud and there will be something quiet, and you won't believe how amazing screen will be created by them.

Trust me fill your backyard with something aesthetic items from The power of silence are not a bad idea. Women, kids, and pets are all happy and the most worthy point is the security.

Start your cool journey with the Power of Silence now....

Remember always light 2 pieces together to see the perfect screen!
You can also make your own show to combine them together!
